

A schematic diagram of a system 100. The system includes a source 130 connected to a switch 120. The switch 120 is connected to a filter 112. The filter 112 is connected to another switch 122. The switch 122 is connected to a destination 140. A control unit 110 is connected to the filter 112. A feedback path 132 is shown from the destination back to the source. A label 105 with an arrow points to the system.
